## Customer Testimonials

“ Truly stunning at night! The colors change and I love to sit out and watch them! “

“This was a Christmas gift for my mother & she loves it. Gives an enjoyable ambiance on the porch at night & even looks nice during the day.”

“I purchased this item after seeing the pics., and reading reviews. So Glad I did!!! The mirrored 'lil disco-balls' are lovely during the day when not lit, creating 'magical' little sparkes on the walls, etc.; and then at night, the color-changing feature is so lovely... I mentioned "durable" ~ yes they are! My granddaughters were so excited to see my new 'gift to me' that I have hung in my bedroom window, that they got a little too frisky, and proceeded to whack around like a pinata! Kids will be kids, and obviously, the "don't whack" law was laid-down ~ and obediently abided by ;) My daughter, neighbor, and grandkids all want one (2 or 3) now for themselves! Great product, and great price!”

“I bought it because I thought it would be fun to display in front of our house and cheer up the neighborhood during quarantine. So far, so good! During the day the mirror balls are visible and shiny. At night, the light display is fun!”

“I love how this wind chime makes my back yard mystical. During the day when the sun hits it; it makes the disco ball effect throughout my yard and my house keeping the cats busy chasing the dots on the walls and ceilings.”

“Such a pretty solar light! Not only does it shine beautifully at night, but it also sparkles all day long. I WILL be buying another one!”

“Great addition to our patio. The color is a plus during the daylight hours. Very pleased with quality of product.”

“Love these chimes. They're so beautiful as they change colors. Makes for a great gift as well.”

“It works great and looks amazing. Great statement piece and stands out in our front lawn.”

“I hung this in my back yard & it is beautiful at night with the changing colors. During the day it is clear and very pretty against the wood fence. Needed something for the back yard but did not want loud wind chimes as some of the neighbors don't like the sound.”

“Made a solar light garden in my backyard for my little peeps, this one is center stage.”
